Hi John,

I cannot even begin to imagine all the Ringwood Mine conversations that you are a part of. We do not want you to be surprised to find out second-hand about the Community Involvement Plan.

We did not receive a large number of comments or edits to the first draft. As a result, we are sending out a short PDF (to be sent out shortly), that expands the section on technical assistance. During the call, we will also ask for guidance on whether to provide additional details on demographics.

Judie, no worries. I am a little sensitive about trying to understand all that is going on around the Superfund site, so I can keep the larger Ringwood community accurately informed.

Did a revised CIP go out on March 30, as mentioned below? I don't think I saw that.

Regards,

John

Dear Mayor Speer,

Please accept my sincere apologies for the fact that your name was not included in several emails that went out to the Ad Hoc Planning Team.

We have inadvertently missed several names, including Lisa Shannon with Edison Wetlands and Doug Ruccione with Ringwood CARES, as a result of the using the "reply all" function to various emails. Yours is our biggest oversight and it was not intentional.

I hope that you have already received the email contained in the following email thread. We hope you can join us for the web-meeting and conference call tomorrow evening. A reminder will be sent out at lunchtime today and I will ensure that your email is on our list.

Again, I am sorry for this omission and appreciate that you brought it to Pat Seppi's attention.

Subject: Save the Date: Ringwood Mines, April 6, Thu., 6 - 8 pm

Dear members of Ringwood Mines Ad Hoc Planning Committee,

Please mark your calendars for Thursday evening, April 6th, from 6 – 8 p.m. This date and time seems to work for all.

The goal for the meeting is to discuss first impression of the Draft Community Involvement Plan, and next steps on re-establishing the Community Advisory Group (CAG).

The attached draft agenda provides an option for working through the different items. If you have any comments or questions about the agenda, please call or email me. Let us know by next Friday, March 31st, if there is anything you think should be added or changed to the agenda. The phone number, access code and web login are provided at the top of the agenda. A second email will also provide meeting details using Microsoft Outlook, for those who use that software.

Note: Based on earlier comments that were submitted about the draft Community Involvement Plan, a revised version will be sent to you this Thursday, March 30th. The key changes will be greater description about the Technical Assistance Service Contract (TASC) and the Technical Assistance Grant (TAG) – two different mechanisms which can be used together or separately to provide technical services for a project.

#### NOTE on Demographics and Confidentiality

The Community Involvement Plan currently contains information that is already publicly available OR where we have requested permission to use information provided by an individual. There is a section on demographics that could be developed and which contain aggregate information about sensitive matters such as home ownership, income, poverty levels, age and education. This is strictly a decision to be made by the residents of Upper Ringwood as to whether there is any benefit in providing that information and whether they want to share that information. During the April 6th meeting, we hope to hear your thoughts about whether or not to provide additional demographic information.

Thank you.
